

# PartylineLines

Hi, my name is \_\_\_\_\_. I am calling from \_\_\_\_\_ (city, state, zip).

**I am calling to oppose the bill HR 1628, the American Health Care Act.**

The latest amendment to the bill strips away essential protections for people with pre-existing conditions while doing nothing to fix the AHCA's original problems. This is not acceptable. It is destructive to citizens of all ages, leaving adults and children chronically ill, suffering without access to affordable treatment, and buried in a mountain of debt that will ultimately decrease productivity, increase crime, and overwhelm the government with financial responsibility.

I object to any future bills aimed at repealing and replacing the Affordable Care Act, especially bills that allow waivers for pre-existing conditions or coverage of essential health benefits. It's been made clear that the majority of Americans want Congress to focus on making the current law work instead of wasting tax payers' dollars to spend time on an agenda that only serves the big health insurance companies in the end.

Thank you in advance for voting against this bill and looking out for the health and well being of ALL American Citizens.
